Paws for a Cause Event & Fundraiser

Therapy Dogs Helping Autistic & Disabled Children

According to the latest US census, there are **52 million Americans, including children**, with disabilities. Those who live with a myriad of physical and mental conditions can be substantially limited in their major life activities. As tools, assistance dogs are made available to help increase community acceptance and participation of people with disabilities. By facilitating increased participation of people with disabilities in all aspects of life, we strengthen society by assuring the diversity of its active members.

The demand for service dogs far exceeds the supply and securing one is often a frustrating process. Most service dog providers have multiple year waiting lists and restrictive eligibility criteria.

Training a service dog is costly but you can help! The Dog Spot, Inc. & Pachaus K9 with Therapy Dog International understand the importance of service dogs and their impact on the lives of persons with special needs. We have teamed up with **Easter Seals of Chicago and 4 Paws for Ability** in efforts to increase community awareness and raise funds for these outstanding organizations.

Your donation can make someone's dream come true!
